

HÜBNER-LEE GmbH & Co. KG
Gewerbestraße 1
87752 Holzgünz-Schwaighausen

With the certificate No. 22 11 90292 001-1, in accordance with the accompanying inspection report No. 2007367, the company obtains the right to label the product described below with the approval mark of the certification authority as illustrated.

Product description:

Type: Plastic load distribution elements / TTE[®] system
 Profile: Profile thickness > 10 mm
 Colour: Grey/anthracite

The product fulfils the following requirements:

- Dimensional stable in conformity with ISO 11359 (-20 °C / +60 °C)
- Pressure stable in accordance with DIN EN ISO 604
- Axle load of up to 20 t (SLW 60) in accordance with DIN 1072
- Sufficient safety as defined in DIN 14090 "Fire-fighting areas on properties" (axle load of 10 t (100 kN))
- UV stable in accordance with DIN 4892-3 (1,000 hrs. UV weathering)
- Weatherproof in accordance with DIN EN 438-2, Point 19
- Inspection of PAH (polycyclic aromatic hydrocarbons) and heavy metals in accordance with ISO 11885/SAA-L-1510 / DIN 38405-D24
- Without environmental impact in accordance with DIN 38415-T06 / DIN 38412 - L30 / DIN 38412 - L33
- Chemical resistance to deionised water, petrol, engine oil, caustic soda, and hydrochloric acid

This certificate is valid from **November 2022 until November 2025**.
 Production monitoring takes place annually.
